## Front Range Gold Members and Friends

"We are 604 miles from Denver International Airport"... Remember the first walk on the moon during the term of President John F. Kennedy? I'm writing to you from

38,000 feet above Fort Smith, Arkansas. Seated beside me are a couple of young boys plugged in and watching a movie on their laptop which begins with the lift off of the shuttle mission which would take astronauts to the moon! I'm employed in a digital unit but may never catch up to the technology that this generation was born with. Born digital! I surely do love to fly! More specifically I love the rush of take-off. Speeding down the runway at 160 mph with speed increasing as the nose of this great bird lifts off with a zillion pounds of thrust and 80 tons or more gently "slipped the surly bounds of Earth and touched the face of God" said President Ronald Reagan. On the other side of the aisle young women are quietly reading ebooks and one hard copy. We've "come a long ways, baby."

Florida in October was a great time to be at the beach. We watched dolphins play at John's Pass at Treasure Island, enjoyed the Emerald Coast including Panama City Beach, Beasley Park, Destin, and the seafood – amberjack, tuna steak, JD's restaurant with live Mo-town music at Indian Rocks; "fried swamp platter" frog legs, gator, and catfish; shrimp, shrimp dip, seafood eggs Benedict and more shrimp! Getting hungry?

We marveled at live sea urchins, a tiny baby octopus which accidently hitched a ride on a large collected shell, and periwinkle which are tiny intact shells with tiny mussels inside them as they wash onto the beach as a collective community. Then they furiously flutter their way down into the sand as the water washes back to sea! We saw crabs inside conch shells and crabs crawling sideways into holes in the sand, and sea oats. All of this evidence of God's magnificent handiwork. We watched a tugboat pulling two barges and ships passing. Waves crashing into shore, a TV channel with a nighttime moon shining over water and sound of waves. We left the TV on one night. We walked onto a long fishing pier and wondered at the diversity of people there, the diversity of life. I especially enjoyed Fort DeSoto location stretching out beyond the mouth of Tampa Bay into the Gulf of Mexico. This was one wonderful trip!

Busy highways. Motorcyclists are not required to wear helmets and most do not. However, Tampa/Clearwater traffic is terrible during rush hours. Our rental car was to be a Suzuki Kizashi. Our initial dismay turned to surprise with manual/automatic shifting and Dan loved it! Tell me why doesn't Kawasaki make cars?

One day on the golf course in Colorado was enough to remind us that we're glad to be home again. The beauty of the mountains and fall foliage are breathtaking. Our critters were happy to see us again too. Home sweet home, Colorado.

Thank you all and thank you, Dan for a wonderful time away and for romantic strolls on white sandy beaches.

This mesmerizing Phantom is traditional musical theatre in the finest sense.
